

THE COMPANY

Since the early nineteenth century, our family has been dedicated to the vineyard activity. In our beginning we trade our production of wine in bulk, to the most important vineyard of the country.

The production of wine on those years was about two millions litres per year, and the varieties that we produced were: Cabernet, Merlot, Chardonnay and Sauvignon blanc.

Until 1998 few Chilean companies exported wine. But in 1998 our company among others 50 commenced exporting wine.

In 1998 we launched our own varieties of Chardonnay, Sauvignon Blanc, Cabernet Sauvignon, and Merlot, with the GALAN's brand name.

By the year 2002 we reached a capacity for wine storage of 3.000.000 litres.

Most of the production was sold in bulk (80%).

Been a middle size vineyard we can achieve a close relationship with our clients, supplying the same quality wine over the years, and depending the volume to be traded also we can every year dedicate a space in the vineyard for this clients.

Sietetazas Vineyards depending on each scenario is willing to appoints as the exclusive commercial representative for the distribution of our wines to other countries.

Yearly Sietetazas sales are about US\$ 3 million dollars. Where more than the 60% is been sold with contract with the largest wineries in Chile

The company achieve ISO 9001 and HCCP certificates.
